### About the Firm

**Wolske & Associates Co., LPA** in Columbus, Ohio, has a fifty year history of experienced legal representation in the handling of significant claims, including those resulting from wrongful death, cerebral palsy and birth injuries, and car, truck and motorcycle accidents. The traditions established by the principal of the firm include being pioneers in the area of medical malpractice litigation, including physician, hospital and nursing home negligence cases. The mission of the firm is to provide effective representation for individuals and families injured by the negligence of others. Wolske & Associates represent people who suddenly find themselves in need of experienced legal assistance because of injuries to themselves or their family members. Establishing and maintaining a relationship of respect, compassion and trust with every client is the hallmark of the firm. As Woody Hayes, the famed coach of Ohio State University often said, "You win with people".

Continuing a 50 year tradition  
as one of Ohio's finest  
Medical Malpractice and  
Personal Injury law firms

Walter "Cy" Wolske, Jr.

### Experience at Work for You

Attorneys at Wolske & Associates have developed special expertise in negotiation, trial advocacy and appellate court advocacy. The decision to employ an attorney for a serious injury claim is very important and we urge your thoughtful consideration in choosing from among the many law firms in Ohio. Personal injury attorneys need to possess experience and savvy in order to navigate the ever-complex civil justice system that in many cases provides victims their only avenue of compensation. We believe the reputation of our office, our successful track record, and the humanity of our legal team makes us an excellent choice in your time of trouble.

### Evaluating Your Case

This year our attorneys will investigate hundreds of personal injury claims involving various forms of medical malpractice, motor vehicle accidents and other personal injury claims. In order to successfully represent you, we ordinarily obtain all relevant accident and/or medical records, including physician and hospital records. We then have those records reviewed by our staff and by trusted accident and medical experts. Once this process is completed, we will recommend an appropriate course of action for your claim.

### Case Examples

The following are brief descriptions of just a few of the many cases our law firm has successfully handled. A brain injury suffered at birth due to a failure to call a doctor for a timely Cesarean section. The failure to diagnose pseudomyxoma peritonei resulting

in death. A client suffers brain injury when a worker throws objects off a roof. A patient's hand must be amputated after a failed diagnosis of compartment syndrome. A negligent driver severely injures a motorcyclist. Failure to properly manage a pregnant patient who was an insulin-dependent diabetic.

### Fee Arrangements

Your initial consultation is free. Our contingent fee and legal services contracts provide that we receive no fee for our services until there is a favorable settlement or verdict on your behalf.

Expenses of prosecuting the case, which the firm usually elects to advance, are repaid by you to the firm at the successful completion of the case. If you are in need of dedicated and effective legal representation, contact us. Our personal injury attorneys are committed to helping victims of negligence obtain the compensation they deserve. But just as important, our lawyers are here to help individuals cope with the trying times that follow the serious or fatal injuries caused by the careless acts of others.
